Control4 Corporation releases their 7" POE Wall Mount Touch Screen. The new touch screen expands the product family, (10.5" Wall Mount Touch Screen and Mini Touch Screen).

Control4's new touch screen is a 16x9 format that has 3X the display area of the Control4 Mini Touch Screen and is capable of running the screen saver functionality that turns the touch panel into a picture frame.

Control4 recently announced their major international expansion plan with the formation of a regional EMEA sales, distribution and support center. To lead these efforts, Control4 has hired Tony Leedham and Brian Chapman (previously with distributor Aventure) to direct the EMEA business and UK operations.

In addition to managing channels, the Control4 EMEA HQ will provide sales, customer support, marketing and accounting services to the region. Tony Leedham will oversee operations and Brian Chapman will oversee sales. Jointly they will develop the business for the EMEA region, working closely with Control4 world HQ in Salt Lake City, Utah.
