Mirror, mirror on the wall...who is the most different of all? **Mirrorvision** is an optical mirror glass combined with a TV to create a screen with a difference.

When switched on, the TV image magically pops up through the mirror surface. When the display is switched off, the screen surface reverts back to a normal mirror.

Mirrorvision technology is available in a number of formats: **Mirrorvision LED TVs** in sizes from 22" - 55",

Mirrorvision Overlays

to integrate with your own TV and

Mirrorvision glass

available in wholesale sheets (1750 x 1250mm & 3150 x 1750mm or custom sizes).

Pro Display offer a range of Mirrorvision LCD TV / PC Screens where the 'reflections technology' is combined with an LCD TFT panel with both video / PC inputs making them suitable for any number of displays application at work or in the home.

Pro Display manufactures an exclusive range of wall mountable LCD Mirrorvision TV / PC Screens with a minimalist look and feel - available in a variety of different screen sizes and
