Further Furniture from Sanus

Written by Marco Attard 20. 03. 2013

Sanus adds two pieces to the Basic Series furniture line-- the BFV357 and BFV353 audio video stands.

The BFV357 stand offers steel and tempered-glass construction, with an integrated wire management system keeping cables organised and hidden. An open design maximises airflow to equipment while providing easy access to the back of components, and adjustable feet ensure furniture is level on any surface.

Meanwhile the BFV353 stands includes cable management system, media storage basket (keeps remotes and other accessories organised) and adjustable feet.

Both stands are quick and easy to assemble, and are compatible with both Furniture Mount System and the ELM701 Anti-Tip Strap from Sanus.
