PDR Mounts brings out the PMSW50u SideWINDER, featuring the latest micro-adjust projector mount technology and available in either universal or platform specific configurations.

"For integrators, time is money," says Charlie Hawkins, PDR Mounts Sales Manager. "...With a simple twist of the wrist, ultra precise pitch-&yaw settings are a breeze. The installer has registered precision in seconds."

PDR Mounts is a division of David Engineering and Manufacturing, established in 1972 in So. California and they produce their entire line of products in USA.
