SMK-Link Electronics Corporation, one of the largest makers of OEM remote controls in the world, brings us “the world’s first Universal Projector Remote Control”.

“Drawing on SMK Electronics’ vast experience designing and manufacturing original equipment remote controls, SMK-Link has created the world’s first Universal Projector Remote Control,” states John Blair, GM Branded Products for SMK-Link. “A one-stop replacement solution for lost or damaged projector remotes, the Universal Projector Remote Control allows IT/AV managers to standardize on a single product as a replacement remote for all of their various projector makes and models.

“The Universal Projector Remote contains an extensive code library for both new and older model projection systems,” continued Blair. “This, combined with its learning capabilities and unconditional 30 day money back guarantee, make the TAA Compliant Universal Projector Remote a worry-free replacement solution for lost or damaged projector remotes.”

SMK-Link’s Universal Projector Remote Control supports popular projector makes including those 3M, BenQ, Boxlight, Canon, Casio, Christie, Dell, Dukane, Eiki, Epson, Hitachi, HP, InFocus, JVC, Mitsubishi, NEC, Optoma, Panasonic, Phillips, Pioneer, Polaroid, Polyvision, Samsung, Sanyo, Sharp, Smart, Sony, Toshiba, Vidikron, Viewsonic and more.
