

rAve's ISE 2013 Portal is Up!

Written by Bob Snyder
28. 01. 2013

For the third year in a row, **rave [publications]** will be covering the world's largest AV show LIVE: ISE 2013 in Amsterdam.

Led by Gary Kayye, rAve will be taking 15 reporters to the show - some from our USA office and some from our **rAve Europe**. So, we'll have the show covered

"In 2012, we shot over 1000 new product videos, wrote over 30 blogs from the show floor, tweeted live and even posted over 300 product stories to our ISE 2012 microsite," says Gary.

So whether or not you are attending, you can follow along with the LIVE coverage, if you wish, by simply bookmarking the link below.

Or, you can download our rAve NOW iPad App that is dedicated to the ISE 2013 show [here](#) .

We're already posting new product news, plus we have a few blogs already posted. We've also aggregated all the ISE 2013 tweets there, too!
