

Crestron Opens Entries for 10th Integration Awards

Written by Marco Attard
12. 10. 2016

Crestron announces entries are open for its 10th annual Integration Awards-- a ceremony the company says is a recognition of excellence in projects featuring Crestron solutions throughout the EMEA region.

This year's awards have a new category, and the entry process is now also open to Crestron integrators, Crestron Service Providers (CSPs) and consultants.

"Our solutions simplify and enhance the lives of millions of people every day around the globe," Crestron EMEA CEO Robin van Meeuwen says. "Our company's success relies on the excellence of all our integration partners and Crestron Service Providers. The Crestron Integration Awards is our way of highlighting the incredible work undertaken in so many different applications across the EMEA. It is an honour to review and judge the entries, and I am looking to seeing the amazing work carried out by our partners over the past year."

The 8 categories for 2016 are:

- Best Corporate Application
- Best Education Project
- Best Integrated Home
- Best Lighting Application
- Best User Experience
- Best Innovative Solution
- Unique Application

Crestron Opens Entries for 10th Integration Awards
