CEDIA reveals the finalists for the product categories in the CEDIA Awards, an honour for the top hardware and software products in the custom install industry across the EMEA region.

A qualified panel of technology installers involved with both sale and installation of such systems vet the entrants for the Best New Hardware and Best New Software categories. The initial round of judging determines the finalists for the two categories.

The shortlist is as follows:

Best New Hardware Product

- 2N-- Video answering unit
- ABB-- ABB-tacteo KNX Sensor
- Barco-- Barco Residential Bragi Projector
- Cinema Build Systems-- Cinema Space Frame System
- ELAN-- ELAN Facial Recognition Touchscreens
- Hero Labs-- Sonic
- Impact Lighting-- Epix Fusion
- Samsung-- Samsung The Wall Lux
- Savant-- Savant Breaker-Companion Modules
- Wisdom Audio-- Wisdom Audio Insight On-Wall Series speakers P4m

Best New Software Product
