

CEDIA Names Young Professional of the Year

Written by Alice Marshall
10. 12. 2019

CEDIA announces Michael Sherman, owner/director of Henri, the French CEDIA Member of Excellence company, is the recipient of the 2019 CEDIA Young Professional of the year award.

The award recognises Sherman as an emerging leader making an impact on the home technology installation industry. It elevates and celebrates the innovation and entrepreneurial spirit of industry professionals under the age of 40.

Sherman joined Henri-- a company founded by his grandfather in 1961-- over a decade at all. Since then the custom installer has grown to include offices in two cities, Paris and Cannes, and has 40 employees. Henri joined CEDIA in 1991, and Sherman was also named Entrepreneur of the Year in the greater Paris area by the France Chamber of Artisans.

Throughout his career and involvement with CEDIA, Sherman has helped expand the global presence of the association. He also served as judge for the CEDIA Awards selection process.
