Crestron opens entries for the Integration Awards 2013-- the vendor's celebration of outstanding work undertaken by accredited Crestron integrators.

"The Crestron Integration Awards showcase the very best in the industry and we are excited to see the projects being submitted to this year's scheme" Crestron UK managing director Robin van Meeuwen says. "It's inspiring to see how our integrators are implementing our products in real-life situations... The Integration Awards celebrate the hard work of installers who design some of the most amazing smart homes I've ever seen."

Eligible projects must be completed between 1 June 2012 and 31 May 2013 and fall within the following categories:

- Best Integrated Home System (best use of Crestron Total Home Technology)
- Most Distinctive Digital Media™ Installation (great project featuring this technology)
- Brilliant Lighting Control and Design (Crestron lighting applications)
- Best High Rise Living (apartment, loft or studio integrations)
- Best Marine Project (yacht)
- Best International Crestron Home (international property, outside of UK)
- Most Creative GUI (open to programmers & CSPs)

The deadline for entries is 31 August 2013 before winners are revealed at a London event during Summer 2013.
