Key Digital launches the Champion series HDMI cables-- the KD-HIFI1.5, KD-HIFI3, KD-HIFI6 and KD-HIFI9 models, designed for use in residential applications demanding reliable and easy HDMI connectivity.

The cables handle all the the latest HDMI features, including 4K resolution support, 3D video and Dolby TrueHD, Digital Plus and DTS-HD audio, making them ideal for use with HDTVs, STBs, DVD players, DVRs, game consoles, cameras and PCs.

"At Key Digital, we design not just products, but entire system solutions," the company says. "This means that our Champion Series HDMI cables are created to handle almost any system design where quality HD video connectivity is a factor."
