Consumer IT
www.ConsumerIT.eu

Consumer IT is the only pan-European publication for specialist computer retailers, big box computer peripherals & accessories buyers, system builders, etailers, and distributors. Featuring news on PC components (fans, boards, chassis etc), new form factors (like netbooks & tablets), mobile (smartphones and devices), peripherals (printers, scanners etc) and profitable accessories (cases, bags, USB, etc), Consumer IT targets buyers who travel internationally to find suppliers and learn about trends in consumer computing.

Consumer Electronics
www.OnCE-News.eu

Home Automation

www.ECInews.eu

Systems integration for the Connected Home is the focus of **European Custom Installer (ECI)**. Whereas CONSUMER IT and ON CE target retailers, the audience of ECI are residential installers of home theatre, home networking and home automation.

Value Added IT Channel

www.IT-SP.eu

The channel that addresses business computing has evolved into a channel of Solution Providers. **European Solution Providers (eSP)** focuses on value-added channels that sell servers, storage, software and SaaS, security, cloud, virtualization, unified communications, managed services and more to EMEA's SMB and mid-market companies and organizations.

Digital Signage
www.DigitalSignageNews.eu

One of the fastest growing areas of technology, digital signage brings together the best of networking, IT and video expertise. **Digital Signage News EMEA (DSN)** focuses on the installers of the hardware, connectivity and software (whereas many of the DOOH publications feature the content and advertising networks).

Pro Audio/Video
www.ProAVbiz-Europe.com

The professional audio/video systems integrator faces the challenge today as the industry moves to IP-based. These readers install videowalls, audio, control rooms, giant projections screens, digital signage, videoconferencing, video security...as well as outfitting conference

rooms, live events, hotel lobbies and rooms, corporate receptions, museums, churches and government buildings. **rAVe EUROPE** is the EMEA franchise holder for Gary Kayye's eNewsletter for the top professional AV integrators

MobileChannels

www.MobileChannels.eu

The channel that sell smartphones and mobile devices will be transformed as the mobile revolution continues. Telecom stores, phone brokers, and retail chains like Carphone Warehouse will face new challenges. Many sites and newsletters focus on mobile, but this is one of the few that focuses on the retail and distribution business of the mobile channel. We also have a special insight with sections such as *Apps Business*. Apps drive the industry but how do companies make money off these Apps?

MobileChannels
is a unique pan-European publication that meets today's needs as mobile collides and converges with wider forces.
